UTD	Course	SE 6367, CS 6367, SYSM 6310, Section 001 Software Testing, Validation and Verification
	Professor	W. Eric Wong
	Term	2024 Spring
	Meetings	10:00am - 12:45pm, Friday, ECSS 2.415

Professor's Contact Information

Office Phone	(972) 883-6619
Other Phone	None
Office Location	ECSS 3.224
Email Address	ewong@utdallas.edu
Office Hours	9:00 am - 10:00 am, Friday or by appointment
Other Information	Class Website https://paris.utdallas.edu/ewong/se6367/

General Course Information

Pre-requisites, Co-		
	GE 5254	
requisites, & other	SE 5354	
restrictions		
Course Description	Fundamental concepts of software testing; Functional testing; Black box-based testing; White box-based testing; Requirement-based test generation; Controlflow and dataflow-based coverage criteria; Test adequacy measurement and	
	enhancement; Automatic test generation; Regression Testing; Mutation testing; Combinatorial testing; Program debugging	
	Ability to understand software testing and verification concepts	
	2. Ability to understand and apply test adequacy measurements	
	3. Ability to understand and use automated test generation techniques	
	4. Ability to understand and use regression testing techniques	
Learning Outcomes	5. Ability to understand and use mutation testing techniques	
Learning Outcomes	6. Ability to understand and use automated oracle generation techniques	
	7. Ability to understand and apply automated debugging and repair techniques	
	8. Ability to understand and perform static source code analysis	
	9. Ability to conduct software testing research project	
	10. Ability to use various source code or byte-code analysis tools/frameworks	
Required Texts &	None	
Materials		
Suggested Texts,	Foundations of Software Engineering by Aditya Mathur (Bafaranaa)	
Readings, &	Foundations of Software Engineering by Aditya Mathur (Reference)	
Materials	Software Testing: A Craftsman's Approach by Paul Jorgensen (Reference)	

Assignments & Academic Calendar

TIBBISIMICITES CO TICULO	Assignments & Academic Calcidat	
01/19/2024	Fundamental concepts of software testing	
01/26/2024	Functional testing	
02/02/2024	Black box-based testing tools	
02/09/2024	White box-based testing tools	
02/16/2024	Requirement-based test generation	
02/23/2024	Controlflow-based coverage criteria	
03/01/2024	Dataflow-based coverage criteria	
03/08/2024	Test adequacy measurement and enhancement	
03/15/2024	Spring Break	
03/22/2024	Exam I	
03/29/2024	Automatic test automation	
04/05/2024	Regression testing	

04/12/2024	Combinatorial testing	
04/19/2024	Mutation testing	
04/26/2024	Software fault localization and Program Debugging	
05/03/2024	Exam II	
E Datas	Exam I: 03/22/2024 (Friday)	
Exam Dates	Exam II: 05/03/2024 (Friday)	

Course Policies

Course Policies		
	Exam I: 30%	
Grading (credit)	Exam II: 30%	
Criteria	Projects: 20%	
Criteria	Software Testing Contest: 10%	
	Homework & Exercises: 10%	
Make-up Exams	No make-up exams unless in case emergency situations such as health emergency	
	or similar un-avoidable situations. Appropriate documents must be provided.	
Extra Credit	None	
Late Work	Not accepted	
Special Assignments	None	
Class Attendance	Strongly encouraged	
Classroom	Class participation in terms of asking questions is highly encouraged. Such	
Citizenship	interactions help improve the effectiveness of the class and break the monotony.	
Field Trip Policies	None	
Student Conduct and Discipline	The University of Texas System and The University of Texas at Dallas have rules and regulations for the orderly and efficient conduct of their business. It is the responsibility of each student and each student organization to be knowledgeable about the rules and regulations which govern student conduct and activities. General information on student conduct and discipline is contained in the UTD publication, A to Z Guide, which is provided to all registered students each academic year. The University of Texas at Dallas administers student discipline within the procedures of recognized and established due process. Procedures are defined and described in the Rules and Regulations, Board of Regents, The University of Texas System, Part 1, Chapter VI, Section 3, and in Title V, Rules on Student Services and Activities of the university's Handbook of Operating Procedures. Copies of these rules and regulations are available to students in the Office of the Dean of Students, where staff members are available to assist students in interpreting the rules and regulations (SU 1.602, 972/883-6391). A student at the university neither loses the rights nor escapes the responsibilities of citizenship. He or she is expected to obey federal, state, and local laws as well as the Regents' Rules, university regulations, and administrative rules. Students are subject to discipline for violating the standards of conduct whether such conduct takes place on or off campus, or whether civil or criminal penalties are	
Academic Integrity	also imposed for such conduct. The faculty expects from its students a high level of responsibility and academic honesty. Because the value of an academic degree depends upon the absolute integrity of the work done by the student for that degree, it is imperative that a student demonstrate a high standard of individual honor in his or her scholastic work. Scholastic dishonesty includes, but is not limited to, statements, acts or omissions related to applications for enrollment or the award of a degree, and/or the submission as one's own work or material that is not one's own. As a general rule, scholastic dishonesty involves one of the following acts: cheating,	

located in room 1.610 in the Student Union. Office hours are Monday and Thursday, 8:30 a.m. to 6:30 p.m.; Tuesday and Wednesday, 8:30 a.m. to 7:30 p.m.; and Friday, 8:30 a.m. to 5:30 p.m. The contact information for the Office of Disability Services is: The University of Texas at Dallas, SU 22 PO Box 830688 Richardson, Texas 75083-0688 (972) 883-2098 (voice or TTY) Essentially, the law requires that colleges and universities make those reasonable adjustments necessary to eliminate discrimination on the basis of disability. For example, it may be necessary to remove classroom prohibitions against tape recorders or animals (in the case of dog guides) for students who are blind. Occasionally an assignment requirement may be substituted (for example, a research paper versus an oral presentation for a student who is hearing impaired). Classes enrolled students with mobility impairments may have to be rescheduled in accessible facilities. The college or university may need to provide special services such as registration, note-taking, or mobility assistance. It is the student's responsibility to notify his or her professors of the need for such an accommodation. Disability Services provides students with letters to present to faculty members to verify that the student has a disability and needs accommodations, Individuals requiring special accommodation should contact the professor after class or during office hours. The University of Texas at Dallas will excuse a student from class or other required activities for the travel to and observance of a religious holy day for a religion whose places of worship are exempt from property tax under Section 11.20, Tax Code, Texas Code Annotated. The student is encouraged to notify the instructor or activity sponsor as soon as possible regarding the absence, preferably in advance of the assignment. The student, so excused, will be allowed to take the exam or complete the assignment within a reasonable time after the absence: a period equal to the length of the absence, up to a maximum of one week. A student who notifies the instructor and completes any missed exam or assignment may not be penalized for the absence. **Religious Holy Days** A student who fails to complete the exam or assignment within the prescribed period may receive a failing grade for that exam or assignment. If a student or an instructor disagrees about the nature of the absence [i.e., for the purpose of observing a religious holy day] or if there is similar disagreement about whether the student has been given a reasonable time to complete any missed assignments or examinations, either the student or the instructor may request a ruling from the chief executive officer of the institution, or his or her designee. The chief executive officer or designee must take into account the legislative intent of TEC 51.911(b), and the student and instructor will abide by the decision of the chief executive officer or designee. **Off-Campus** Off-campus, out-of-state, and foreign instruction and activities are subject to state Instruction and law and University policies and procedures regarding travel and risk-related activities. Additional information is available from the office of the school dean. **Course Activities**

These descriptions and timelines are subject to change at the discretion of the Professor.
