CS/SE 6367 Software Testing
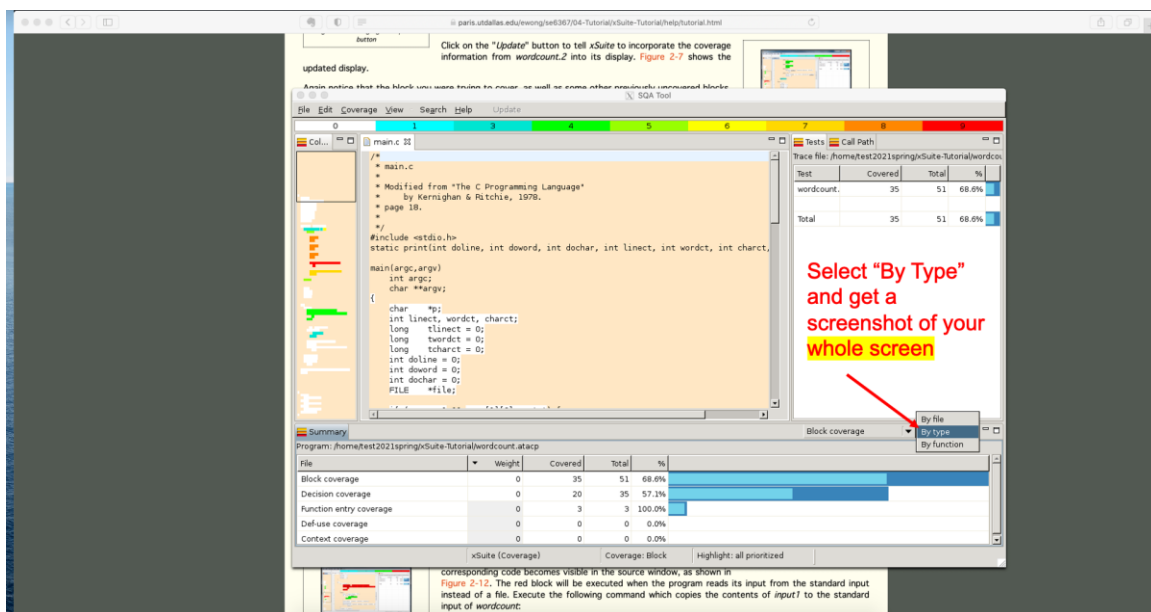

xSuite Tutorial

Total points: 100

Follow the instructions of xSuite tutorial. After executing the test case **wordcount.9**, get two screenshots that show the code coverage of **main.c** and **wc.c**.

How to go to different source code

Click "By file" > double click either one of the files.

How to show the code coverage for the current selected source code

Select "By Type" from the dropdown menu.

Note: this screenshot is just a sample and does not have the correct coverage results.

Tutorial Submission

Submit two screenshots of your entire screen that show the code coverage (with "By type" dropdown menu selected) of **main.c** and **wc.c** to eLearning.
